Personal Summary

In my current studies, I am obtaining a BSc. in Internet Systems Development at Limerick Institute of Technology. I enjoy working hard and am eager to gain the most experience in the online payment and banking sectors during my studies. In the future, I would be interested in furthering my education with a master's degree in Computer Science. Recently, I began my third year of college, which includes a 7-month internship as part of my course requirements. I would be interested in working for your company during this time.

EXPERIENCE

Moylan's bar   **March 2016-June 2018**
55 Main Street, Loughrea, Co. Galway, H62 E738

- Stock and prep the bar at the beginning of each night.
- Serve patrons in a fast paced but effective manner whilst maintaining good customer relations.
- Ensure absolute accuracy whilst dealing with payments and cash handling.
- Maintain a clean and presentable bar serving area during periods of extreme businesses.
- Clean and return the bar to perfect condition at the end of the night.

Fiserv (Nenagh office)   **March 2022-August 2022**
Stereame, Nenagh, Co. Tipperary, E45 WF84

- Worked as part of the cloud-poi team as part of a summer internship.
- Took the lead on testing the first roll out of translations for payment terminals (credit card machines).
- Once I was up to speed with the code and systems in place, I was tasked with reducing technical debt.
- Worked in an agile team using scrum methodology.
- During my time on the team I became proficient with git for pushing my changes to the code on to GitLab to make sure my code passed the necessary tests and was merged correctly.
